

OPTION REPORTS FIRST HALF YEAR 2012 RESULTS

Leuven, Belgium – August 31, 2012 – Option N.V. (EURONEXT Brussels: OPTI; OTC: OPNVY), the wireless technology company, today announced its results for the first half fiscal year ended June 30, 2012. The financial information reported in this release is presented in Euros and has been prepared in accordance with the recognition and measurement criteria of IFRS as adopted by the European Union. The accounting policies and methods of computation followed in the attached financial statements are the same as those followed in the most recent annual financial statements. The company released its IAS 34 interim financial statements.

Business Update

Option transformed its business over the last 18 months and, as a result, the activity is now based on three strategic pillars: Connectivity, Security, Experience.

At the Mobile World Congress in Barcelona, Option showcased the XYfi, VIU2, Cloudkey and GlobeSurfer III+. Based on feedback of the market and potential customers, these products and solutions were further developed and are now being commercialized.

They are the proof that the Group has moved from basic products for mobile network operators (MNO's), towards End-to-End solutions for businesses and consumers. The offering is now positioned towards vertical markets such as automotive, financial services, security & surveillance.

After 18 months of development of these new products & services, the Group is now ready to start generating return on investment (ROI) from recurring sales.

Financial Highlights of the first half fiscal year 2012

- Total revenues for the first half year of 2012 were EUR 23.2 million compared with EUR 25.8 million realized in the first half of 2011. Product related revenues decreased from EUR 11.5 million to EUR 6.0 million, while software and license revenue increased from EUR 14.2 million to EUR 17.2 million. The recognized license revenue from Huawei was EUR 16.5 million, compared with EUR 13.5 million for the first half of 2011.
- Gross margin for the first half year 2012 was 75.6 % on total revenues, compared with a gross margin of 54.6 % for the comparable period in 2011. The gross margin was positively influenced by the increased license revenues.
- Compared to the first half year 2011, total operating expenses in the first half year 2012 decreased from EUR 17.5 million to EUR 14.0 million by reducing development and sales and marketing costs.
- The first half year 2012 EBIT and net profit amounted to respectively EUR 3.5 million and EUR 3.7 million compared with EUR -3.5 million and EUR -2.9 million during the corresponding period in 2011.

- The cash position decreased from EUR 25.2 million at the end of 2011 to EUR 13.0 million due to a negative cash flow from operating activities of EUR 9.1 million and from cash flow used in investing activities from EUR 3.1 million.

Non-financial highlights

Corporate

- On April 30 and May 21, 2012 the company has organized an extra-ordinary shareholder's meeting to modify the date of the annual meeting, to make amendments to the articles of association and to decide to issue naked warrants "2012" for a maximum number of 4.124.930.
- On May 29, 2012, the Group announced Olivier Lefebvre is stepping down as Chairman of the Board of Directors effective immediately. Jan Callewaert has been elected as Chairman of the Board and continues to serve as CEO of the Company. Olivier Lefebvre, who has been an Option Board Member since July 2008 and was Chairman since February 2010, has decided to focus full time on his new responsibilities as CEO of Xylowatt. Mr. Lefebvre remains a member of the Board of Directors of Option.
- On August 3, 2012, it has been announced that David Hytha, Contributing Board Member has resigned from Option. Hytha's departure will see him focus on his role as Chief Strategy Officer at Quixey Inc, the search engine for applications.

Business

- In February 2012, the Group has been showcasing its portfolio of connected devices at the Mobile World Congress 2012 in Barcelona. Combining multi-band radio design expertise with connectivity management and application software, the Company enables purposeful broadband connectivity through its portfolio of innovative connected solutions.
 Products on show at MWC 2012 included XYFI, the world's smallest personal hotspot; VIU2, a remote camera with dedicated apps for smartphones; Cloudkey, a mobile security solution that provides simple and secure access to cloud applications and data; and Globe Surfer III+, Option's newest mobile broadband router built on its trusted and proven router platform.
- On February 28th, 2012, the Group announced its new 4G LTE module, the GTM801 which is footprint compatible with the 3G LGA module, the GTM601. The embedded solutions of the Group provide flexible alternatives: manufacturers can design tablets or ultra-portable notebooks using the same layout to offer either 3G with the GTM601 or 4G LTE with the GTM801 to meet diverse market needs. Both modules are designed to support Windows 8 and the USB-IF Mobile Broadband Interface (MBIM) specification.
- On March 7th, 2012, collaboration with LetterGen NV is announced to gain a foothold in the digital document signature market by embedding LetterSigner in Cloudkey®. Cloudkey® is a mobile security solution that provides simple and secure access to cloud applications and data. This new and unique mobile solution offers world-class security combining VASCO's DIGIPASS authentication capability, Option's 3G USB modem and connection management software (uCAN® Connect) and LetterGen's LetterSigner power to legally validate documents and protect them with an electronic signature.
- On April 4th, 2012, the Group establishes its credentials as an LTE provider with the launch of Beemo, its new, ultrafast, quad-band 4G LTE USB modem.

 Beemo brings best-in-class 4G. It sets itself apart through its stylish design, high quality and great performance. It has proven superior heat dissipation and delivers exceptionally fast quad-band (800/900/1800/2600 MHz) connectivity. Beemo comes with an external antenna connector that

enables users to improve the signal in areas with low signal strength. The product is made available through Option distribution network.

On May 8th, 2012, the Group confirms its strategy to supply more than mobile network operators and focus on vertical markets. As a first deliverable, Option extends its wireless expertise into the burgeoning Connected Car market. Bringing together connectivity experience, UX expertise and automotive sector understanding, the company is designing, developing and delivering in-car connectivity solutions.

According to the GSMA, the market for connected car applications will be worth \$600 billion by 2020, representing 13% of the \$4.5 trillion global connected devices business. Option's entry in the in-car connectivity market follows the company's investment in Autonet in 2011, supporting the delivery of the 1st IP Based Telematics Control Unit for the Auto Industry.
